The Most Effective Advertising Medium for reaching the People of Town and District. The Journal goes into the Homes.

Vol. 11 No. 43

Coleman, Alberta, Thursday, October 20, 1932

GIRL GUIDES TEA AND SALE

In United Church Club Room  
 Saturday Afternoon, Oct. 29

\$2 per year, single copy 5c

## Senior Hockey Club Re-Organized—New Executive Officers Appointed

Appreciation Expressed of Services Given by Retiring President and Secretary

The Coleman Canadians reorganized for the season at a meeting held in the council chamber. J. A. McLeod, president of the club the last two seasons, and Idris Hayson, secretary for two years, have resigned, the latter having taken up studies at Alberta University. Both these officers gave splendid service to the club, and a general voice of appreciation was recorded at the meeting.

The 1932-33 president is Frank G. Creegan, and Fraser McLeod is secretary. Both are enthusiastic workers in amateur hockey circles, and to assist them the following executive was appointed; C. B. Devine, vice president, Albert Bowling, W. Fraser, sr., and Angelo Gentile.

Johnny Atkinson and Eddie Wood were appointed trainers, and Buck Grant as coach.

General discussion took place on the purchase of new uniforms and raising funds. The club has about \$50 from last season's receipts.

It is expected a meeting will soon be called of the executive of the Crow's Nest Pass league. Nothing definite has yet been heard of Blairmore or Bellevue, but it is expected they will reorganize now that Coleman is arranging the season's lineup. Several new players will be drafted into the team, and promising recruits from the junior players will have an opportunity to "show their stuff."

## Trying to Fool the Public

Occasionally newspaper publishers receive advertising from firms of doubtful reputation. The publisher who runs his business on right lines will enquire for references before accepting such material. A number of weekly papers published an advertisement of a supposedly "bulb firm" in Holland, and another United States firm sent out an advertisement on "Titus Pearls." Both these ads were turned down by The Journal, because they appeared spurious. Now confirmation has come of the Hollandia bulb firm being a fraud in the following communication from the Consul General of The Netherlands, Montreal:

"A few unreliable people in The Netherlands (Holland) are trying, under various assumed names, to advertise flower bulbs in Canadian papers."

These advertisements are not paid for. Cheques sent in payment have proven spurious.

Moreover, those who act upon the advertisement, remit money to the advertiser, will not receive any bulbs.

I therefore beg to suggest that you consult me, before publishing any advertisement of Netherland bulb exporters."—Consul General of the Netherlands, Montreal.

## Trail Rangers Organize

The Trail Rangers met on Monday night in the United church club room, and appointed officers for the season, as follows: Bob Emerson, chief ranger; Charley Maure, treasurer; Foss Boulton, tally; Wesley MacQuarrie, sub-ranger. Mr. T. Fisher is the leader of the group.

The birth of a daughter to Mr. and Mrs. Dan McLellan is announced, on October 18,

## Young Peoples' Club Notes

The Young Peoples Club provisional committee met on Monday and their first event of the season will be an informal social evening on Friday night, Oct. 21, in the Odd Fellows hall from 8 to 12 p.m. The program will consist of cards and dancing and a one act play.

Reg. Jones is chairman of the entertainment committee, which has charge of arrangements.

A constitution has been adopted, and officers appointed. It is probable that the weekly social meetings will be held in the Odd Fellows hall, Friday being the night of each week's meeting. The minimum age was fixed at 18 years, and the membership committee will receive applications.

Committees for sports, dramatic, social and entertainment have been appointed, and the enthusiasm with which the new movement has received augurs well for the success of the club.

A provisional executive of the club has been appointed, for a preliminary organization only, and the election of officers for the season will be held following membership enrolment. Mr. Theodore Fisher inaugurated the club here, and his efforts should meet with hearty support by the young people.

## Local News

Rev. and Mrs. A. S. Partington visited friends in Lethbridge on Tuesday

Mrs. C. B. Devine is enjoying a visit from her mother, Mrs. Collins, of Saskatoon.

Mr. and Mrs. J. R. Morgan of Pincher Creek, announce the birth of a son, on October 18.

The heavy snowfall of the weekend caused a number of stray horses to roam into town from the mountains, searching for food.

Dr. Keith McLean of Coleman spent a few days in town last week the guest of his parents Mr. and Mrs. L. M. McLean.—Innisfail Province.

Kenneth Blain, who spent the summer on his uncle's ranch near Pincher station, returned this week, and plans on staying here for the winter.

Harvey Murphy, Workers Unity League organizer, addressed an open air meeting in Coleman on Saturday night on "Unemployment." A small number were present.

People read the local paper for local news. It is also the most effective advertising medium for local business houses, because it is taken home and read by the entire family.

Mrs. Cornett and Mrs. J. Derbyshire are entertaining the Women's Guild of St. Albans' church this evening. They are preparing for their annual bazaar to be held early in December.

W. L. Vaughan, of the East Kootenay Power Co. staff at Sennel, is leaving for Vancouver at the end of October. He has been employed as engineer at the steam plant for two years.

## Announcement

Special showing of Men's "Clothes of Quality" suits to measure. Extra trousers at no extra cost. Mr. Matheson of the "Clothes of Quality" house will be at our store with his semi-annual display on Tues. and Wed. next, Oct. 26 and 27.—F. M. Thompson Co., Blairmore.

## Two Years Suspended Sentence on Bellevue Mine Pickets

Men and Women Arrested During Strike Disputes Plead Guilty Before Justice Ford

Appearing in a group, five women and eighteen men of Bellevue and Blairmore were charged in supreme court at Macleod, on Monday, with unlawful assembly. Two years suspended sentence was the penalty, after all had pleaded guilty.

Several were charged with assault occasioning actual bodily harm. Sentences were the same as the unlawful assembly charges.

There several other cases arising from the strike to be heard, which will come before the court today or Friday.

## Local News

"Tis good business to buy your printed matter from The Journal, because the money you spend comes back to you. Spent with a traveling salesman, it is completely gone. Reciprocity in business is mutually beneficial, and is a good example to follow.

The activity and energy of young people should be encouraged along right lines. Their activities also help to create business, while older and less active people often sit around bemoaning hard times. The impulsive energy of young minds makes for progress.

Make up your shopping list from the specials advertised in this issue. Enterprising stores and businesses consistently advertise goods of quality at fair prices. 'Tis more profitable to buy a good quality article at a fair price, than a cheap inferior article at a cheap price.

Merchants are advised that The Journal will shortly have a fine display of calendars for 1934, and it would be appreciated if they would hold their orders till Mr. Kenneth Blain calls on them. These are manufactured in Canada, and with the high rate of exchange against Canadian currency, it will mean a substantial saving to buy Canadian manufactured instead of imported calendars. They are manufactured by the News Publishing Co. of Truro, Nova Scotia, and most of Coleman stores purchased from this company last year. Your business will be appreciated. The Journal will also have a line of advertising novelties manufactured by a well-known Edmonton firm.

## NOTICE!

The Ladies Auxiliary of St. Paul's United church will hold their annual bazaar in the club room on Saturday, November 26 from 3 to 6 p.m. Remember the date. Everyone welcome.

## Three Months Hard Labor is Given H. Murphy Goes to Lethbridge Jail

Strike Agitator Conducts His Own Defence Before Judge and Jury at Macleod

Brought to trial before constituted authority which he so often fibbed at during his activities as Workers Unity League Organizer and strike leader, Harvey Murphy was found guilty by the jury at Macleod assizes. The charge was that of unlawful assembly in connection with disorders during the miners strike at Bellevue and Blairmore.

Murphy addressed the jury for half an hour in his own defense, giving his reasons for the strike and the right to picket. The jury were half an hour considering their verdict. Murphy made no comment when sentence was given by Mr. Justice Ford.

The law provides a penalty of 14 years for offences of this nature, but the jury's recommendation to leniency was considered. Mr. Justice Ford sentenced accused.

## Local News

Gladiators are iron things which give out heat, said a schoolboy.

A weekly advertisement in The Journal helps to build business. People are more likely to buy from a store which regularly advertises. Remember—people shop where they are invited. Advertising and enterprise make a good team.

A classified ad. at 2c a word may find a buyer for something you went to sell. The town council advertised a house and lot for sale and sold it after the ad. had appeared once. Many things can be sold at small expense by using a classified advertisement. Try it! Minimum charge is 5c.

Mrs. Herbert Hoover, honorary president, discloses a new activity of the Girl Scouts. They are being asked to participate in relief work throughout the United States this winter. Mrs. Hoover tells the Virginia Beach convention this means community recognition of the organization's power to help, a higher type of service, and a tremendous character development for the girls. A troop of Girl Scouts specializing in helping old people has made an interesting discovery—Grandmothers are more anxious to give than to receive—Christian Science Monitor.

## Announcement

Call and see our samples of Men's and Boy's Boots, Monarch Wool Knit, Girl's and Boy's Sweaters, Babies' Woolen Coats, Bonnets, Booties, etc.—Coleman Novelty Store, A. E. Knowles, prop.

## Masonic District Meeting in Coleman in 1933

Next year the meeting of the lodges comprising District No. 6 will be held here, and the newly-appointed district deputy grand master is Mr. Albert F. Short, of Summit lodge, Coleman, who will succeed Mr. Frank J. Smith, of Hillcrest.

## Preparing for Armistice Day

A committee to arrange for Armistice Day public service will be held in the council chamber Friday evening, Oct. 21, at 8 p.m. The committee consists of Mayor Paterson, Rev. A. S. Partington, Rev. Father Speckmair, Rev. Roy C. Taylor, Jas. M. Allan, chairman of the school board; Lt. Col. Barnes, A. L. Watkins and H. T. Hallwell. The service will be held in the opera house if it is available by that date.

Ex-service men, Boy Scouts, Girl Guides and local organizations will be represented at the service.

## A Special Offer

With orders of 25 Christmas Cards given before Nov. 15 at The Journal office, a cabinet of stationery with your initial embossed on will be given free.

## Tea and Pantry Sale

The Ladies Missionary Society of St. Paul's church will hold a tea and pantry sale, also sale of aprons from 3 to 6 p.m., on Saturday, October 22nd.

## Local News

Sam's Service Station is the local agency for Marconi Radio sets, new models now being on display.

The high school orchestra has resumed practices under Miss May Powell.

Mrs. W. G. Fraser, Sixth street, intends leaving for Kellogg, Idaho, to spend the winter with relatives.

"Bingo," faithful pal of "Bud" and "Buck," will no more trot along the miners path. It is suspected that he died from poisoning.

Look through the advertisements for money-saving bargains. Buy advertised goods for quality and good value.

Mr. Lorne Campbell, president of McGillivray Creek Coal & Coke Co. Ltd., was here on a business visit last week.

Michel-Natal Branch of the Canadian Legion will hold a dance on Armistice Night, Nov. 11, and extend an invitation to Legionnaires and their friends from other branches in the Peace towns.

Relief camps, it is reported, will be established at Lundbreck and Coleman, for unemployed men, according to a news despatch from Edmonton. Work will be continued on the Red Trail highway.

West Coleman school junior Red Cross branch, under Miss A. Yuill and the teachers there, is planning its winter program for this worthy cause. For several years the school has contributed to the Red Cross.

"Credit means debt." Read the article on page 2 for a little enlightenment as to what credit really means in financing. It may clear up some fuzzy mistaken ideas on the subject which is troubling most of the people of the world right now.

## Man Resisting Arrest Causes Excitement on Main Street Fri. Night

After Chase and Struggle is Over-powered and Struggles to Lock-up at Blairmore

Considerable excitement was caused on Friday night, Oct. 14, about 10 p.m., by a man named Alex. Redjigo trying to resist arrest. Attempts were made by Constable Simpson and Constable Houghton to arrest him outside of the pool room next to the Grand Union hotel. He immediately ran away, after making some obscene remarks and defying the police. The police gave chase, and after a severe tussle near the skating rink, in which they were assisted by A. Hatfield and Joe Janotak, Redjigo was placed under arrest, handcuffed and forced into the rumble seat of Constable Simpson's car and rushed off to Blairmore. Redjigo's friends, it appears, refused to assist the police when called on.

On Saturday morning he was brought before Magistrate Gresham at Blairmore. It being the third time he appeared on a charge of intoxication, he was fined \$200 and costs, or two months in jail. He took the jail term. Accused is a heavy man, very active, of over 200 lbs. weight, and it took five men to hold him down during the struggle to place him under arrest.

A large number of people quickly assembled during the chase by the police and the arrest.

## United Church Notes

Sunday, Oct. 23 11 a.m., music by Junior choir. Sermon—"The Backgrounds of Religious Worship," the first of a short series on worship.

7 p.m. sermon, "Seen in the Garden," Solo, "In the Garden."

The minister would be glad of names of members, adherents and friends of the church upon whom he has not yet called.

A rally of boys will be held in the church hall at 7 p.m. Monday. Boys of all ages invited, to hear something of interest.

A rally of teen age girls was held in the church on Tuesday, Oct. 18, to organize the G.I.T. 30 girls were enrolled under the leadership of Mrs. Roy Taylor and Miss Jean Pattinson. Meetings will be held every Tuesday from 7 to 8:30 p.m. Plans for a Hallowe'en party are being made.

Dr. L. B. Cochran will address the missionary rally at Bellevue United church, Oct. 31 at 3 p.m. He is secretary of the home mission board of the United church.

## St. Alban's Church Notes

Sunday, the 22nd after Trinity, service will be at 11:15 a.m., with morning prayer and address. At 2:30 p.m. Sunday school will meet.

Lack of financial support may compel the withdrawal of some of the Anglican clergy in Calgary diocese, stated Bishop Sherman, in an address to clergy and laymen at a meeting in Lethbridge on Tuesday. Rural Dean Powell of Macleod will meet a committee of Blairmore and Coleman Anglican churches on Monday evening in the rectory at 7 p.m.

## ANNOUNCEMENT

## Credit Means Debt

Much is being heard these days in criticism of Governments and banks, and proposals of many kinds are advanced having as their object the "reform" of the banking system, the "curtailment" of the powers of banks, the "socialization" and the "nationalization" of banking, money and credit; the gold standard is attacked on the one hand and defended on the other; bi-metalism is advocated; "inflation" is urged by many, while others argue that present inflation means ultimate "depreciation" and future trouble. Drastic writing down of present indebtedness, even complete wiping out of debts, is demanded in some quarters, which others claim is a policy of "repudiation" and the destruction of future credit.

Present criticism of the banks rests primarily in the fact that, at the present time, the banks will not extend credit. If people today could go to their bank and borrow as readily and as largely as they could and did in 1928 and 1929, much of the criticism now heard of the banks would die out. It is because they cannot borrow, and in thousands of cases have no employment and so cannot earn, while in the case of farmers, prices are so low that there is loss rather than profit on their production, that people, already in debt, are bitterly critical of the banks.

Critical over what? Because the banks will not extend credit to them. In other words, the banks will not allow these people to get further into debt to them. So much is being said about banking credit,—using it, expanding it, contracting it,—that the average person is likely to have a confused idea as to what banking credit, or any kind of credit, actually means. And as most of us are just average persons, and particularly where financial and economic terms are concerned, it is perhaps well to reduce credit to its simplest and safest terms, and see what we make of it. Credit means debt. No matter at what angle we may view it, it means either immediate or prospective, an obligation assumed, a debt to be paid. We borrow or buy on credit today and pledge ourselves to pay on some future day. This is true whether the transaction involves a dollar payable within a month or a million dollars payable in a score of years, and it is equally true whether it is an individual, a corporation, a municipality, a province or a nation. The principle is the same, no matter what the circumstance.

Our major difficulties today arise from the fact that there was too much credit, not too little, available to us in the past. It was easy to borrow; still easier to buy on the deferred payment, or instalment plan. Everybody was doing it. The nations of the world fought a great four-years war on credit, destroying cities, industries, shipping, millions of productive human lives, blowing it all away with high explosives, and promised to pay the huge bills incurred at some future time. Farmers bought more land, more implements, combines, tractors, trucks, automobiles, radios, etc., etc., on credit; the workingmen and married people in the towns and cities bought houses, and furniture, and automobiles, scores of things they regarded as necessities and other scores which were luxuries, if not credit. Salesmen urged the people to do these things, telling them their credit was good. And all this credit meant just one thing, more debt.

Governments and corporations proceeded on the same basis. Hundreds of millions of borrowed money were expended on railways, high standard highways, public buildings, and modern public services of many kinds. People demanded these things and enjoyed them. Voices raised in warning that a day of reckoning would come were disregarded, and those who gave voice to such warnings were deemed as pessimistic, people without vision or initiative, hopelessly non-progressive. Credit was available, so why not use it and let the future pay? And every credit used meant a debt contracted.

What was then the future is now the present, and we are called upon to pay. And that's the chief trouble today,—we have got to pay, and we don't like it. Nay, more, we have awakened to the fact that it is now well nigh impossible to pay, because we used up more credit, and thus created more debt, than our resources now enable us to pay.

Credit is an expensive thing. It is also an illusive thing, a wild o'-the-wisp to the unwaried and thoughtlessly venturesome. But the debt created, and remember debt is always created by credit; you cannot have one without the other,—is not illusive; it is a hard, concrete fact. No matter what your credit may be, it is no more, if you are wise, than your capacity to pay the debt, the use of that credit creates.

Present debts cannot safely be disposed of by apparently simple procedure of wiping them out by legislative action, or through the artificial process of inflation. Repudiation would be destructive of future credits which, within reason, are essential to the carrying on of the world's business, because all credit is merely confidence; destroy confidence by acts of repudiation and you destroy credit. On the other hand, inflation beyond normal, ultimately means deflation back to normal. If the pendulum swings to the extreme right, it will have to swing just as far to the left before it gradually reaches a normal position. These are laws of nature which no legislation in the world can override.

No one present indebtedness be liquidated by more credit, which only means more debt, or a transfer of debt from one source to another. Debts once contracted must be honorable and honestly discharged. In some cases, in no doubt a goodly number of cases, adjustments must be made in order to prevent maximum losses by both debtor and creditor, but in the majority of cases debts ought to be paid through frugal living, practised economies, pain-taking work. Having enjoyed what credit bought for us, we must now pay for that credit. Because we did not know how to use credit wisely when it was obtainable, we are now realizing what it means to pass through the slow, laborious and generally painful process of paying off our debts.

Electrical experts estimate that enough energy can be stored in an ordinary electric storage battery to lift the weight of the battery more than six miles.

Some of the mountains of China have never been penetrated by man, says a travel-writer. Wives, returning from vacations often find these in kitchen sinks.

Mr. P. L. D. Moulard, Vernon, B.C., writes:—"Last Saturday I suffered from a severe attack of dysentery. I tried nearly everything on the market, without getting any relief, until a friend told me to use Dr. Fowler's Extract of Wild Strawberry, which I did, and I got immediate relief. Now I am making it a rule to always keep a bottle of it in my medicine chest."

"Wild Strawberry is sure relief for dysentery, colic and diarrhoea, but I always see I get the genuine 'Dr. Fowler's'!"

Suffered A Severe Attack  
Of Dysentery

## An Unusual Damage Suit

Belgian Actor Claims \$2000 For Loss  
Of Beard

For the loss of his beard, which was shaved off in a French prison, a Belgian film actor, M. de Nervy, is claiming \$2000 damages from the State.

The beard, a luxuriant growth, was of great commercial as well as aesthetic value, M. de Nervy declared because it enabled him to play important parts in white, a patriarchal appearance was required.

He bases his claim for compensation on the fact that while awaiting release after completing a sentence for fraud, he was sent by mistake to the penitentiary at Fresnes and subjected to the same regime as criminals who were required to be clean-shaven, instead of remaining simply underdressed, as he was entitled.

Money is scarce  
yet she has  
pretty clothes

"You always look as if you had just stepped out of a fashion sheet. Yet there is none too good for you. How do you do it?" the neighbors were always asking Mrs. Burnette. One day she told them, "My secret is that I wash and simple. When I dress, blouses and such things become faded with much washing, I renew their color beauty by a simple rinsing in Diamond Tints. These wonderful tints are made by the makers of Diamond Dyes which you know are the best dyes made for dark colors. Diamond Tints are for light shades. They need to be soiled, and they will through repeated laundering. All you need to do is to rinse your things in Diamond Tints. You can get such lovely shades by using them. So you see," said Mrs. Burnette, "pretty clothes are as easy for you to have as for me."

## Less Butter Produced

## Failing Off In Creamery Butter Production For August

The production of creamy butter in Canada in August amounted to 24,705,968 pounds, compared with 30,182,925 pounds in the preceding month, and 27,806,505 pounds in August, 1931. Nova Scotia and New Brunswick have increased their production, but from Quebec to the Pacific, production has decreased. The largest percentage reduction was in Saskatchewan, which is down 24 per cent. compared with last year. These figures were released by the Dominion Bureau of Statistics.

Health cannot be looked for in the heart that is subject to worms because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Milk & Water Products Corp. export worms and are engaged in an action that the systems of the little sufferers are restored to healthfulness all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

## This Method Is Simple

## One Way To Combat Problem Of Soil Drifting

Soil drifting is a very serious problem in many parts of Canada, and many are the ways that have been tried to combat it. Here is a new one, and one which looks fairly promising. Spread strips of fresh manure about three rods apart. Then drive the spreader the other way across the field so as to make checkerboards. Not only does this keep the soil at home, but it catches the neighbor's soil.

## Adept Water Walkers

Girl students of Lady Margaret Hall, Oxford, England, formed an aquatic club this year, and have taken up practically every phase of water sports. Walking on the water with ski floats has been one of the most popular recreations, and the girls have become adept at it.

Farmers in Cuba now haul their produce in ox carts to the new Central Highway, where fast motor trucks carry it into the city.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

"And did he have the dentist take an X-ray of his wife's jaw?"

"He tried to, but all they could get was a moving picture."

## Still Seeking Franchise

## Bermuda Women Pay Taxes But Have No Vote

Regret is felt in Bermuda that the question of interpretation of the word "person" was not carried to the Privy Council, as it was by Canadians, according to Mrs. St. George Butterfield, member of the Bermuda Woman Suffrage Society who visited Montreal a few weeks ago. Women are "persons" in Bermuda, when it comes to paying taxes, but not "persons" when the elections are held, she points out. However, she said, women in her country were basing their hope for enfranchisement on election of younger men to the island parliament at the general elections next year.

It was at least 30 years since the woman suffrage movement began on the island, when the question was raised by a woman belonging to an American family, whose father was a member of the Council, Mrs. Butterfield recalled. The first response to the idea, she said, was "why not?"

Then reflection brought forth the suggestion that the women would be influenced as electors by the ministers. The bogey then raised of Church meddling with State was sufficient to turn the issue against the women.

All charitable work and beautifying the island, such as planting trees along the streets, have been done by women, said Mrs. Butterfield.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer weak and debilitated for months at a time. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for attacking the disease from the tender air passages.

Health cannot be looked for in the heart that is subject to worms because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Milk & Water Products Corp. export worms and are engaged in an action that the systems of the little sufferers are restored to healthfulness all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

An extensive coal bed has been found near Cape San Juan, Spanish Guinea.

Floods rarely occur in the St. Lawrence River.

## SOURED ON THE WORLD?—THAT'S LIVER

## Wake up your Liver! Bile

## —N-Calomel necessary

Many people who feel sour, sluggish, and generally weak, are suffering from a lack of bile, mineral water, laxative candy or chewing gum or rouges which only move the bowels.

What you need is to wake up your liver. Take a glassful of warm water and add one-half ounce of Calomel. Mix with two pounds of liquid oil into your bowels. Get rid of all intestinal wastes as they should, once more.

Calomel Little Liver Pill will soon put you up. Purify your body. Take from one to four Calomel Little Liver Pill each day. Take from them by name. Refuse substitutes. 25¢. at all druggists.

# No Solution Is Yet Found For The Irish Question

London, England.—Representatives of the Irish Free State and the United Kingdom failed to arrive at terms to end the economic deadlock between the two countries, and the negotiations were abandoned.

J. H. Thomas, British Dominions Secretary, announced Saturday, October 15, after two days of discussion with President Eamon de Valera of the Free State, that the result had been failure and that the status of the issues between the two countries remained unchanged.

Mr. de Valera and his colleagues announced they were returning immediately to Dublin.

Details of the negotiations were kept secret. Mr. Thomas said parliament would be fully informed when it reconvenes.

The negotiations centred on the Irish land annuities, which the Free State Government has refused to remit to the United Kingdom.

## New Superintendent Of Indian Affairs

Dr. McGill Of Calgary, Successor Dr. D. C. Scott

Ottawa, Ont.—Dr. H. W. McGill of Calgary, has been appointed superintendent-general of Indian Affairs. He succeeds Dr. Duncan Campbell Scott who resigned.

Calgary, Alberta.—Official notice from Prime Minister R. B. Bennett was received by Dr. H. W. McGill, M.L.A., Calgary physician, of his appointment as deputy superintendent-general of Indian Affairs at Ottawa. Premier Bennett's telegram said the appointment had been approved by His Excellency the Governor-General, and Dr. McGill expects to leave for Ottawa about the beginning of November to assume his new duties.

Dr. Harold Wigmore McGill, M.D., V.D., was born December 21, 1879, at Norwood, Ontario, and was educated at Ontario schools and the University of Manitoba, Winnipeg, Man., where he obtained his M.D. degree. He was married December 12, 1917, to Miss Emma Mildred Griffis, of Kenora, Ontario.

## German Participation In Parley Essential

Disarmament Conference Cannot Achieve Results Otherwise

London, Eng.—Great Britain and France, represented by the two premiers, have agreed it is essential to get Germany back into the world disarmament conference if that meeting is to achieve any constructive results.

It was learned that they had agreed upon the necessity of Germany's participation in the Geneva meetings and that the British Government still believes Germany's claim to arms equality should be dealt with in a special four-power conference which Great Britain suggested some time ago.

### Offers Criticism

Calgary, Alberta.—Criticism was leveled at the Dominion health of animals department by Hon. George Hoadley, Alberta Minister of Agriculture, during an address before the annual convention of the Alberta Veterinary Association here. He maintained "reorganization of the health of animals branch is long past due." He urged a system whereby young men could enter the veterinary profession with the hope of adequate reward.

## Act Effecting The Redistribution Of Seats Is Read In Commons

Ottawa, Ont.—The act effecting redistribution of the membership in the House of Commons, based on the census of 1931, was presented by Premier R. B. Bennett and given second reading.

While the representation is altered in four provinces the total, 245 members, remains unchanged. Nova Scotia loses two members, being reduced from 14 to 12, while British Columbia gains two, the total being increased from 14 to 16.

New Brunswick's representation is fixed at 10 members, a loss of one

member, while Alberta gains one, with a total of 17.

The redistribution, which will stand for 10 years, is based on the population of Quebec. Under the British North America Act the representation of the other provinces in the House of Commons is fixed by the ratio of 65 to the population of Quebec.

For the next 10 years the representation will be as follows: Quebec, 65; Ontario, 82; Nova Scotia, 12; New Brunswick, 10; Manitoba, 17; British Columbia, 16; Prince Edward Island, four; Saskatchewan, 21; Alberta, 17; and the Yukon Territory, one.

### Want Wheat Bonus?

U.S.A. Ask Bonus Of Five Cents A Bushel

Calgary, Alberta.—The executive of the United Farmers of Alberta sent a telegram to Robert Gardner, P.M. for Acadia and president of the Alberta farm organization, asking him to submit a request to the Federal Government that a bonus on wheat of at least five cents a bushel be paid to farmers on their 1932 crop.

Decision to make the request immediately instead of waiting until the farm executive meets here October 27, to consider the bonus amount, was made hurriedly late today following communication with the executive members, said Norman F. Priestley, vice-president.

The telegram to Mr. Gardner read:

"The United Farmers of Alberta executive urgently draws the attention of the government to the necessity of a bonus on wheat of not less than five cents a bushel."

Mr. Priestley pointed out that as far back as last May the U.F.A. had favoured the payment of a bonus on the 1932 crop, as paid by the Dominion Government on the 1931 crop.

When the meeting of the prairie government and wheat pool representatives was held in Winnipeg this week, decision was made to ask the Federal Government to pay a bonus on the 1932 crop. The decision of this conference, said Mr. Priestley, was largely responsible for the U.F.A. submitting its request immediately, although pressure had been brought to bear by both members of the executive and rank and file of the organization in favour of a bonus.

The U.F.A., added Mr. Priestley, was seeking an early decision from the government on the question because of the depressed prices for wheat in all its grades.

### Communists Expelled

Soviet Oust Twenty Prominent Members Of Committee

Moscow, Russia.—The central control committee of the Communist party expelled 20 prominent members, including Gregory S. Zinoviev, former chairman of the Third International, and Leo Trotzky, brother-in-law of Leon Trotsky.

The expelled members were accused of organizing a counter-revolutionary party for the purpose of dissolving collective and state farms.

The Communists hit by the expulsion order are party men of long standing and former followers of Trotsky, who now is in exile in Turkey. They belonged to the right wing.

### Wheat Movement To North

Shipments To Churchill Show Signs Slowing Up

Prince Albert, Sask.—Wheat movement from this division of the Canadian National Railway to Churchill is slowing up slightly after wheat shipped from here has nearly twice filled the elevator at Churchill. Prior to August this year, 2,500,000 bushels had been shipped and since that date 1,500,000 more bushels have been sent northward from this division. There remains more than half a million bushels yet to be shipped.

### Offers Criticism

Calgary, Alberta.—Criticism was leveled at the Dominion health of animals department by Hon. George Hoadley, Alberta Minister of Agriculture, during an address before the annual convention of the Alberta Veterinary Association here. He maintained "reorganization of the health of animals branch is long past due." He urged a system whereby young men could enter the veterinary profession with the hope of adequate reward.

### Want Wheat Bonus?

U.S.A. Ask Bonus Of Five Cents A Bushel

Calgary, Alberta.—The executive of the United Farmers of Alberta sent a telegram to Robert Gardner, P.M. for Acadia and president of the Alberta farm organization, asking him to submit a request to the Federal Government that a bonus on wheat of at least five cents a bushel be paid to farmers on their 1932 crop.

Decision to make the request immediately instead of waiting until the farm executive meets here October 27, to consider the bonus amount, was made hurriedly late today following communication with the executive members, said Norman F. Priestley, vice-president.

The telegram to Mr. Gardner read:

"The United Farmers of Alberta executive urgently draws the attention of the government to the necessity of a bonus on wheat of not less than five cents a bushel."

Mr. Priestley pointed out that as far back as last May the U.F.A. had favoured the payment of a bonus on the 1932 crop, as paid by the Dominion Government on the 1931 crop.

When the meeting of the prairie government and wheat pool representatives was held in Winnipeg this week, decision was made to ask the Federal Government to pay a bonus on the 1932 crop. The decision of this conference, said Mr. Priestley, was largely responsible for the U.F.A. submitting its request immediately, although pressure had been brought to bear by both members of the executive and rank and file of the organization in favour of a bonus.

The U.F.A., added Mr. Priestley, was seeking an early decision from the government on the question because of the depressed prices for wheat in all its grades.

### Decision Rests With Local Authorities

As To Whether Direct Relief Be Paid In Money Or Kind

Ottawa, Ont.—Agreements between the Dominion Government and the various provincial governments respecting the administration of direct relief, place the decisions as to whether it shall be paid in money or in kind directly in the hands of the local authorities.

The Department of Labor says the act specifically gives the prerogative to the local administrator of the fund.

### Cost Of Imperial Conference

Total Amount Expended \$238,581.88

Commons Is Told

Ottawa, Ont.—The total amount expended in connection with the Imperial Economic Conference was \$238,581.88. Sir George Perley, acting secretary of state, told William Duff (Lib., Antigonish-Guysboro) in the House of Commons.

The sum paid for entertainment including lodgings, restaurant and other charges of delegates and official parties while the conference was sitting in Ottawa was \$133,505.

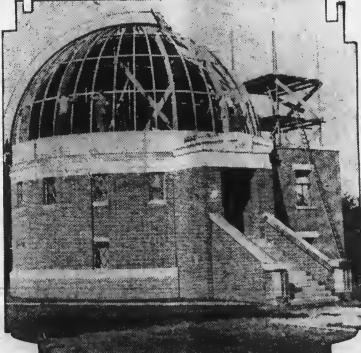

### Last Ship For Season

Churchill, Man.—Nosing her way through a sea as calm and clear as it was turbulent when she came in the previous week, the steamer "Penitentiary" put out bound from here, the last boat to leave this northern port this autumn and the 10th to carry grain overseas by the new Hudson Bay route this season.

### Coast Fishermen May Strike

New Westminster, B.C.—A general strike of fishermen covering the entire British Columbia coast appeared as a possibility following a protest lodged by the British Columbia Fisherman's Protective Association against the low price of salmon.

### RETIRING ASTRONOMER-ROYAL'S CONTRIBUTION

It is the custom of every Astronomer-Royal to make some addition to the great Observatory at Greenwich, England, upon retirement, and above is the new telescope, which is to be Sir Frank Dyson's contribution. The dome and building, almost completed, will house the new 36-inch telescope.

### NEW QUEBEC SENATOR

Photo by G. L. R. (Courtesy of the Montreal Star)

J. H. Rainville, K.C., former chairman of the Montreal Harbor Commission, who has been chosen to fill one of the Quebec vacancies in the Senate.

### "Bright Fan" Sinking

Mishap Should Not Affect Safety And Feasibility

The Fas, Man.—The feasibility and safety of the Hudson Bay route should not be affected by the recent sinking of the "Bright Fan."

The mishap was an act of God, declared Captain R. E. Oliver, commander of the grain steamer, upon his arrival here from Churchill.

Captain Oliver declined any statement regarding details aboard his ship when the crash came, but members of the crew declared everything was in order. Wreckage was at their disposal.

Captain Oliver was reticent about telling of the accident, stating he did not wish to commit himself until he reached the east and the enquiry into the disaster is held.

"I shall be glad when it is all over and all the facts are known to the proper authorities," he declared.

The striking of the iceberg by the ship was an accident that no man could avoid and was one of those tragedies that strike in the night," the captain said.

Churchill is a coming port and will become the centre of one of the highest trade and shipping routes in spite of the loss of the ship, he said.

### Death Due To Negligence

Court Ruling On Auto Crash Which Killed Earl Of Egmont

Southampton, Eng.—A county judge found the automobile collision in the New Forest in which Earl of Egmont, former Priddis, Alberta, rancher, was killed last May, was caused by "gross negligence on the part of both drivers."

The judge arrived at his decision in dismissing with costs action for \$100 by John Penny, driver of the car in which the earl was killed, against Sir Jack Lithauer, London, driver of the other car.

The action alleged negligence on the part of Lithauer, but the judge found both were negligent in that each failed to see the other car and both were driving too fast.

There was not a pin to choose between them, he said.

### Coast Fishermen May Strike

New Westminster, B.C.—A general strike of fishermen covering the entire British Columbia coast appeared as a possibility following a protest lodged by the British Columbia Fisherman's Protective Association against the low price of salmon.

## Ask For Inquiry To Investigate Troubles Of Agricultural Industry

### Increase In Bacon Exports Anticipated

Amount To Be Shipped Will Depend Largely On Prices

Ottawa, Ont.—C. B. Rothwell, Dominion Livestock Commissioner, announces Canada's export of bacon and hams to the United Kingdom during 1932 will total between 40,000,000 and 60,000,000 pounds, more than twice the amount ever shipped there in any one year.

The new Ottawa agreement will permit a shipment of some 280,000,000 pounds a year, from seven to eight times the present figure. The amount to be shipped will depend largely on prices, Mr. Rothwell believes. If higher prices are obtained the Canadian farmer will increase his production.

C. E. Elford, Dominion poultry husbandman, sees possibilities of a great increase in the export of eggs to the United Kingdom. Increased exports of butter, cheese and condensed milk are forecast by W. E. Stephen, secretary of the Dominion Dairy Council.

### Seek More Business With Soviet Russia

American Manufacturers In Favor Of Barter Trade Scheme

New York—Seeking to stimulate American trade with Soviet Russia, preparations are being made here for the appointment of a committee to lay the foundation for a barter trade plan between the two countries.

Decision to appoint the committee was reached at a conference sponsored by the American Manufacturers' Export Association which was attended by more than 200 domestic producers.

Believing that world trade conditions are more favorable than ever before for expansion of the American-Russian trade it is the aim of the business interests here to boost an exchange of goods by the United States to Russia to \$100,000,000 a year, and imports from Russia to \$25,000,000 annually. It is estimated that this year's trade between the two countries will amount to less than \$25,000,000.

### Expect Announcement Of Marketing Board

Parliament To Be Asked For Immediate Action

Ottawa, Ont.—A marketing board to direct Canada's anticipated agricultural trade with the United Kingdom will be proposed in the House of Commons as a result of the trade agreement between the two countries.

Hon. Robert Weir, Minister of Agriculture, announced a few weeks ago that a commission to inquire into the feasibility of a board would be established after the adjournment of parliament. It was intimated this would not satisfy certain Progressive and Liberal members particularly from western Canada who will propose the immediate establishment of the board so as to lose no time in operating.

### Electing New Deputy

Geneva, Switzerland.—After long political maneuvering the League of Nations Assembly decided to elect two deputy secretaries-general, instead of only one as has been customary. John A. M. C. Avenal, the French financial expert and deputy secretary-general, is generally expected to be promoted to succeed Sir Eric Drummond as secretary-general.

### Must Finish Hotel

Vancouver, B.C.—"The city of Vancouver will take court action to force fulfillment of the Canadian National Railways contract at the first sign of default," Mayor Louis D. Taylor said, when questioned concerning reports that the hotel now being built here might be disposed of for other purposes.

## Inter-Provincial Conference To Be Held Each Month

Regina, Sask.—The first of a series of western inter-provincial conferences each month will be held at Regina.

The Federal Government will announce in the House of Commons the terms of sharing relief costs with Western provinces.

A bonus on wheat will be requested from the Federal Government.

These were the main decisions arrived at at a conference of prairie

governments held at Winnipeg, according to Hon. M. A. MacPherson, attorney-general and provincial treasurer, who returned to Regina.

Hon. W. R. Motherwell, former minister of agriculture, urged the appointment of a commission to diagnose the diseases "that are continuing to kill farming in every part of this country." Humphrey Mitchell, Labor member for Hamilton East, proposed a royal commission to investigate unemployment insurance.

"The world trouble today is in the distribution and in the many ramifications that enter into the distribution of goods," John Valentine (Lib., South Battleford) stated.

He gave three "outstanding" reasons for the position in which the world was: (1) Development on this continent and in European countries of "narrow nationalism"; (2) artificial barriers against the free flow of goods; (3) present currency and credit system.

The gravity of conditions in Saskatchewan was stressed by Mr. Valentine. No. 1 Northern wheat was now selling at less than 30 cents a bushel.

Hon. W. R. Motherwell, former liberal minister of agriculture, said the government through the speech from the throne had handed out some "pouquets" to themselves. "If the government wants to put itself on the back," he stated, "and draw a long bow, how does it not do it themselves and not place the words in the mouth of his Excellency through the speech from the throne."

### New Burdens For Britain

Ottawa Agreements No Advantage Opinion Of Lord Snowden

London, Eng.—The Ottawa agreements mean new burdens for the British public, Lord Snowden, who was Chancellor of the Exchequer in the former Labor Government, and recently resigned from the present National ministry, said in an article in the Financial News.

"In every case concessions made by Britain mean an increase in the prices of commodities—mainly necessary foodstuffs," Lord Snowden writes.

"In the case of the Dominions all changes give relief to Dominion traders and consumers.

"I have it on very reliable authority that expert examination revealed the fact that instead of giving Great Britain an advantage there will be an actual loss in the present trade with Canada."

### Dies From Injuries In Harvesting Accident

Young Farmer Was Caught In Machinery Of Combine

Saskatoon, Sask.—Severely injured in a harvesting accident, October 1, Robert Potter, 26-year-old farmer of the Sovereign district, died in hospital here.

Mr. Potter was injured when he was caught in the machinery of a combine he was operating on the twelve miles southeast of Sovereign.

### Must Finish Hotel

Vancouver, B.C.—"The city of Vancouver will take court action to force fulfillment of the Canadian National Railways contract at the first sign of default," Mayor Louis D. Taylor said, when questioned concerning reports that the hotel now being built here might be disposed of for other purposes.

## NOTES AND COMMENTS

"Business will always see more good days as long as there are two men left to trade on the face of the earth. The urge to want things, to produce and to trade, is far stronger than any economic condition we can ever face.... and history has always justified this faith." —Ex.

"Prosperity is spontaneous human activity—it is impossible to prevent its return."

The police should be given assistance by citizens when called on to assist in arrests of unruly and disorderly characters. There are too many instances of disorderly conduct in public places. The corners of the most used streets are naturally the places where men congregate, but often the language heard is unfit for women and children to hear, and the more orderly element can quite easily put a check on those rowdies who disgrace themselves and cause annoyance to others. Those men who refused to assist the police deserve to be earmarked for future reference. The men who assisted did their duty as citizens.

A correspondent rises to remark that the proposal to erect a memorial cairn was first moved by the war memorial committee, which some time ago turned over its funds for the purchase of an X-Ray machine for the hospital, and the purchase of a memorial plaque. However, the work was not done this year, owing to various reasons, including the strike, but Mayor Pattinson, on being interviewed, stated that this proposal had been kept in mind, and probably action would be taken so that a proper memorial will be erected on the piece of ground east of the town hall. He suggests that the entire piece of land should be fenced and seeded down, and kept in proper condition. Such work would have the hearty approval of the citizens.

Time is money! If you doubt it, just keep track for one day of the time spent in delays of various kinds. It may be a minute or two only each time you stray from your appointed task, but you will be surprised to find at the end of a short working day that you have frittered away an hour or more for which there are no returns on the payroll. Everyone wastes time, not consciously, or intentionally, and it is not until you put a check on yourself, that you will find you have put in considerable time, supposedly at work, which has produced nothing in the way of revenue at whatever job you may be employed.

Interest of citizens of the Pass towns centres this week on Macleod. A number of workers are charged with unlawful assembly and other breaches of Canadian laws. Misguided in their zeal to bring about a change in existing methods of government, they attempted to accomplish by force that can only be achieved by reason—that is, provided their proposals find favor with the majority of people. Evolution of the system of government is a gradual process, progressing throughout the years. The big mistake fanatics make is in attempting to force on a democratic people an autocratic system which to their unbalanced reasoning means the salvation of the workers. Revolution perpetrates far more tyranny than evolution.

It is to smile when one encounters the "wise bird" who will advise others how to conduct their business, but who is not making a howling success of his own job. There is a good saying to remember—"Judge not, ye be not judged," especially when you lack the knowledge or qualifications to sit in judgment. 'Tis the wise man who saith very little, but listeneth much.

Some follow the line that is laid down for them to travel. Were they to get off the track, they would be hopelessly lost. When business is prosperous, it is plain sailing. When stormy seas arise, then it is the resourceful man who will ride over the difficulties as a skilled mariner will pilot his ship. The man who charts his own course will not be tied down, but will be ever on the lookout to improve the dull or shining hour.

From a report in the Lethbridge Herald, it would appear that efforts are being made by some merchants to abolish or curtail the holiday in remembrance of the Armistice, and of the millions who died during the Great War. Those whom the war did not touch personally may be indifferent, but there are legions of relatives to whom the war meant something deep and real, and to whom Armistice Day is more sacred than any general holiday. They will honor it, no matter if the day is not publicly observed. There are some so devoid of sentiment, to whom the significance of the occasion makes no impression. They are of that class who have no music in their souls.

A cheerful outlook and willing determination to succeed is one of the best assets a person can possess.

Municipality of The Town  
of Coleman

Notice to Relatives of Persons on  
the Assessment Roll and to  
Tenants

Notice is hereby given that during the months of September and October, applications may be made under the provisions of section 204 of The Town Act for inclusion in the voters' list of the Town of Coleman.

The wife, husband, father and mother and every husband and daughter of any person whose name appears upon the assessment roll are entitled to be placed upon the said list.

If he or she is resident with the said person within the town, or assists him in a business in respect of which he is taxable; and

if he or she is of the full age of twenty-one years; and

if his or her name does not already appear on the roll; and

if he or she duly makes application in accordance with this notice.

All tenants who have rented an assessed parcel for a period of twelve months immediately preceding the last day of August of this year, and who duly make application during the months of September and October, are entitled to be placed upon the said list.

**Act Accordingly**

(The Kimberley Courier)  
Did you ever pause in a post office long enough to take a quick look at the floor shortly after a number of people have received their mail? If you have you were probably struck by the number of circulars and forms, letters and handbills that littered it up. In fact, you doubtless were struck with the fact that many of them had been thrown in the waste basket as soon as they were removed from the envelope, the recipients never even taking the trouble to give them a second glance.

But did you also notice that you did not see anyone throwing the newspapers, and especially the home town newspaper, in the waste basket or on the floor? Did you notice that newspapers are always carried instead of being tossed away? Well, right there is a mighty good argument in favor of advertising in the local newspaper. The circular letter, a costly form of advertising, goes into the waste basket. The home town paper goes into the home. Remember this and spend your advertising money accordingly.

**The Still, Small Voice of Conscience**

A communication, breathing the heartfelt sorrow of a humble soul writhing over an incident many years ago, was received the other day at the Winnipeg headquarters of the Canadian National Railways, from a man at Lake City, Fla. The conscience sufferer confesses that "while engaged in manual labor on the Canadian Northern construction, a thing took place which is a thing of condemnation to me now. Once or twice when returning from work I carried off a shovel. It is a long while past but I am some day to stand and give an account of just and unjust deeds. I am now confessing my error and want to make restitution." A reply to this debtor, hitherto unsuspected, was made by the Canadian National.

The mind governs all actions, and the heavenly mind will not only be a happy mind, but will radiate happiness to others. Sometimes the sun shines; sometimes it is cloudy; yet mother earth keeps on producing more than sufficient to feed the people. Man's supposedly superior intelligence has not solved the problem of equitable distribution.

Here's the first of the Do Your Christmas Something or Other Early items. Already the lumbermen of New Brunswick and Nova Scotia are getting ready for Santa Claus. They are now out in the woods chopping down Christmas trees. Practically all of these are shipped to Boston, New York and Philadelphia and the annual export averages 260,000 trees.

Care in preparing copy helps the printer get your advertisement the way you want it. Be sure it is right and you will be better served.

**WORLD HAPPENINGS BRIEFLY TOLD**

Hon. Charles McCrea predicts that Ontario will produce \$10,000,000 in gold annually.

Carman A. Holmes has been appointed postmaster at Churchill, Man., with a fully equipped office.

Over 25,000,000 apples left St. Lawrence ports for Great Britain, Ireland and South Africa within one week.

Robert Kronfeld, veteran glider pilot, put his new sailplane "Austria II," through six successive loops in a flight at Vienna.

J. H. Thomas, Dominion secretary, speaking at Newport, England, said British people want peace with the Irish Free State.

Hon. H. Marler, Minister to Japan, addressing the Vancouver Board of Trade, urged still greater improvement of Canadian sales in the Oriental market.

The House of Commons may decide this session whether Canada will adopt a distinctive flag. Cameron R. McIntosh, Liberal, North Battleford, has given notice of a resolution asking for a distinctive flag.

Vancouver welfare federation will ask citizens of Vancouver to contribute \$400,000, it was decided when plans were laid for the 1932-33 campaign. Last year a total of \$305,000 was asked for.

An optimistic outlook for lumbering operations in the province of Quebec this winter is seen by Hon. Honore Mercier, minister of mines and forests. He predicts that 650,000,000 feet of lumber would be cut, giving employment to 20,000 men.

The average protein content of Canadian wheat has been in general steadily increasing during the last five years and present indications are the 1932 crop will maintain the high figure of a year ago, the grain research laboratory of the Board of Grain Commissioners reports.

Applications from those desiring to locate in Churchill, Hudson Bay port, will now be received by the Department of Natural Resources and Industry, and the townsite will be open for settlement next spring. J. S. McDermid, Minister of Natural Resources and Industry for Manitoba, announced.

**Taking Precaution**

"Every window in your house was lit up last night. Did you have a big party?"

"No, but my wife is returning from her holidays today and if she notices the small consumption of gas, she'll be suspicious."

A new porcelain on the market cannot be cracked when hit with a hammer or mallet. It only shows a slight dent after a blow.

Fires are increasing in England so rapidly that the insurance companies are worried.

**For PIES PASTRIES and MILK PUDDINGS**

A SK any good cook to tell you how to make a pie or a tart? Doubtless the will to get a golden, rich, improved flavor to your cooking you should always use St. Charles Evaporated Milk. It is the best evaporated milk and possible a great variety of sweet and tasty dishes that you and your family will delight in.

**Origin Of Tennis****Game Played Half Century Ago Was Very Different**

There are more than 20,000 public and club lawn tennis courts in Great Britain now, and the number of tennis players goes up every year by leaps and bounds. Yet the game is barely fifty years old. The original lawn tennis was called Sphairistikhe. Half a century ago it was played on courts of hourglass shape with a net six feet high in the middle. The rackets were rather like queerly-shaped shrimp nets and the game was pure bat and ball. It was played by ladies with wavy waists who held up their long skirts in one hand, and men whose costume consisted of tight knickerbockers, striped stock ngs, walking boots, jerseys and bowler hats. The original lawn tennis balls were of plain rubber, but later the covered ball came into fashion. In its early days it was usually coloured and often ornamented with fancy stitching.

**Winter May Be Cold****New York Man Bases Prediction On Law Of Averages**

The winter will be long and cold, as James H. Scar, U.S. Government meteorologist, sizes it up; and then again it won't. It all depends on whether the winter follows the law of averages or gets half-baked.

The last five winters the meteorologist explained, have been mild. Each warm winter, under the law of averages, brings a cold winter just that much nearer.

One cannot, however, be sure. Mr. Scar suggested that those who are interested might observe the temperature during October. In 80 per cent. of recorded cases warm Octobers have been followed by warm winters.

**SIMPLE DRESS WITH SMART LINES WOULD MAKE ANY LITTLE SCHOOL GIRL HAPPY**

The wide box plait effect from neck to hem makes it so distinctive.

A novelty red tweed-like mixture made the original. The white piping collar and cuffs are so neat and trim. See miniature view of the pattern also provides for Peter Pan collar.

It's so easily made and so fascinating when finished. And it will cost you next to nothing.

Daughter will love it.

Weave crepe in tobacco brown with orange-yellow crepe trim and matching leather belt is smart for early fall.

Style No. 844 is designed for sizes 8, 10, 12, 14, 16, 18, 20.

Size 8 requires 2½ yards 35-inch with yard 35-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

**NURSE LOSES 7 LBS.****Chinese Have Weird Cures****Very Rarely Will They Take Medicine Used By Westerners**

"I weighed 145 lbs," writes a nurse, "when I bought the bottle of Kruschen Salts which I have just taken. I have taken a good half-teaspoonful a day since I began every morning. Now I weigh 138 lbs, a loss of 7 lbs. I am very glad to have lost weight, especially without trouble." —Dr. E. T. (Trotter) Trotter.

Unlike most salts, Kruschen isn't simply a laxative.

When you take Kruschen Salts you not only stimulate your intestines to function naturally—so perfectly, you probably never internal organ, gland, nerve or tissue records show, no wildcat's fibre in the body with Nature's own re-vitalizing and rejuvenating minerals.

The bottle of Kruschen Salts today, and take half a teaspoonful in a glass of hot water every morning before breakfast.

Before the bottle is empty you'll find your tongue eyes are brighter—your growth sprightly—nerves are aiding—you'll sleep sound, enjoy your meals, and after a day's work you'll be ready for wholesome recreation. Millions of women already know all this.

**New First Sea Lord****Sir Ernest Chatfield Was Beatty's Flag Captain During War**

As Flag Captain to Lord Beatty in the "Lion" and the "Queen Elizabeth" all through the war, Sir Ernest Chatfield the new First Sea Lord, served in the three principal actions of Heligoland, the Dogger Bank and Jutland. He is a gunnery specialist. He was a man of the moment in the crisis at Jutland. The "Indefatigable" had been sunk, the "Queen Mary" had gone up in flames, the "Lion" was in flames too. Then a tremendous salvo struck the "Princess Royal" and she too vanished. A signalman reached the "Lion's" bridge where stood Vice-Admiral Beatty as he then was. "Princess Royal" blown up, sir," he said, Beatty turned to his Flag Captain, saying, "Chatfield, there seems to be something wrong out—ships today. Turn two points to port." That meant two points nearer the enemy—and it meant, too, that the crisis of the battle was surmounted. The British battle cruisers began to assert an ascendancy over the enemy and our ships received no further serious injury. Full testimony to the accuracy of the British gunnery has been given in German accounts of the battle.

The cruiser "Terrible" which is leaving for Newport, Monmouthshire, for breaking up, became famous in the South African War when her guns and naval ratings were assigned at the last moment to Ladysmith and helped Sir George White to sustain the siege for several months.

The cruiser "Terrible" which is leaving for Newport, Monmouthshire, for breaking up, became famous in the South African War when her guns and naval ratings were assigned at the last moment to Ladysmith and helped Sir George White to sustain the siege for several months.

After lying 60 years in the River Thames on loan from the Admiralty, the training ship "Archer" has finally been condemned. The vessel will be replaced by the German sailing ship, "Peking," which will be renamed the "Archerus." The condemned "Archerus" was the last British vessel to proceed into action under full sail. This action took place during the Crimean War.

Like most leafy vegetables, the purpose of celery in the diet is not to provide heat or energy, but rather to furnish the vitamins, minerals and other secondary food so essential to good health. As a source of minerals, celery ranks high among the vegetables, being particularly rich in lime and magnesium. For this reason it is a great blood regulator and tends to combat any tendency to excess acidity. Celery is also a valuable source of vitamins, being one of the best for vitamin "B"—Dominion Fruit Branch.

Ranks Higher Among Vegetables As A Source Of Mineral Supply

It is doubtful if any of the common vegetables can compare with celery as an aid to general health. Most physicians agree that as a blood purifier and for ridding the body of toxic substances, this vegetable is in a class by itself.

### Personal and Local

Mrs. J. Fairhurst has been on the sick list this week.

Do not hesitate to send interesting local news items to The Journal or telephone 209.

Mrs. Evelyn Stout has returned home after visiting with friends in Lethbridge.

Mr. and Mrs. George A. Brown and Olive returned on Tuesday from several very enjoyable months holidays at the homes of their parents in the south of England.

Mr. Melville Anderson, of Andrew and McLean, sight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, Nov. 1st. 20 years experience and regular visits assure you of his satisfaction in all optical work.

'Tis a good rule to pay bills monthly. It saves a lot of trouble, and helps to keep money in circulation. The best rule of all for daily purchases is to pay cash. Then there is no danger of buying what you find it difficult to pay for.

Mrs. C. F. Dunlop entertained at bridge on Thursday evening last, two tables being in play. The ladies' prizes were won by Mrs. T. MacLean, first, and Miss Margaret Dunlop, consolation; Mr. Sidney White, gent's first, and Mr. J. Park consolation.

A bull trout weighing over 6 lbs was caught by Jim Russell at Crow's Nest Lake last week. There has not been reported any particularly big fish caught this season, and the Rod & Gun club competitions did not produce anything larger than a 13½ oz. trout, caught by E. W. Beard, secretary of the club.

Tommy Flynn and Charley Maurer, aged 11 and 13, on Saturday last walked to Lille. They were so late in returning it was feared they were lost, and a search party went about five miles looking for them. They returned safely whilst the party was still searching quite innocent of the alarm they had caused.

The Pythian Sisters' whist drive last Saturday night was enjoyed by members and friends, and the prizes were won by the following: Mr. J. Richards, first; Mrs. J. Emerson, second; gents—Steve Penny, first; Harry Harris, second. These whist drives are being held weekly during the winter season.

A combined meeting of the clergy and laity of the Anglican church deansaries of Lethbridge and MacLeod was held on Tuesday at Lethbridge. Rev. A. S. Partington and Lt. Col. Barnes represented the parishes of St. Alban's, Coleman, and St. Luke's, Blairmore. The meeting was addressed by Bishop Sherman and prominent laymen of Calgarian diocese.
